Communica-
tion

Hon. Leon Lu. Conwell
Mayor of Somerville
Somerville, Mass.

35474

Dear Sir:

It is probable that the apportionment of the cost of the northern traffic artery will be made this year. This will be done by three commissioners who are to be appointed by the Supreme Judicial Court under the provisions of chapter 489 of the acts of 1924.

I have represented the city in various apportionments relating to bridges, the Metropolitan Park District, the Metropolitan Sewerage District, the Metropolitan Water District and other matters. This, it seems to me, is a special and unusual matter and I suggest that an active part be taken by yourself and a committee of the Board of Aldermen

Yours very respectfully

Frank Y. Kaan

City Solicitor.

I further recommend that the sum of one million dollars be appropriated for the -same purpose, the money to be provided by a bond Issue under the provisions of Chapter Forty-four of the General Laws.

The first recommendation is to cover the requirements of Chapter 338, Acts of 1923 which provides that only such sum may In any year be authorized to be borrowed as exceeds twenty-five cents per one thousand dollars of the valuation of the city or town for the preceding year.

The appropriations above recommended are for the purpose of erecting new east and west wings to the High School, a new heating plant, a gymnasium> alterations to the present building, and new equipment.

AS It Is impossible to determine the exact cost of the proposed construction -prior to the receipt of bids on the several contracts which will be entered into, it may be necessary to make an additional appropriation at a later date.

Respectfully,

Leon M- Conwell,

Mayor,

Veto

To the Honorable the Board of Aldermen,

Gentlemen:

I am returning without my approval the order passed by your Honorable Board on February 24, 1927, to install a spot light at the corner of Highland avenue and Central street, for the reason that there appears to be no suitable place to install the spot light without erecting an additional pole at a junction where too many poles already exist. In my opinion the installation of spot lights should be a part of a general study of protecting street crossings in order that the expense of experimenting may be reduced to a minimum.

Respectfully,

Leon M. Conwell,

Mayor

The order to install spot light at corner of Highland avenue and central street was returned with the foregoing veto message and passage of order over the mayor's veto to the contrary notwithstanding lost by ye and nay vote, Aldermen Harris, Kitson, Bowers, Pearson, Mason, Seller, Perry, Davidson, Connell, Hayes, Dalton, Curtis, Carr, Burns, Houley, Downey, Blair, vice-president Howe, 18, voting in the negative, Aldermen Haley and Ross, 2, being absent, the president not voting.

Monday, April 11, 1927-

To the Honorable the Board of Aldermen,

Gentlemen:

It is my sad duty to bring to your attention officially the death 56404
early Sunday morning of the Honorable John M. Woods, Mayor of Somerville in
1909 and 1910. During a residence in Somerville of more than fifty years Mr.
Woods maintained always a love for his city and in many ways was identified
with public service. He was a successful business man carrying heavy respon-
sibilities up to the time of his retirement a few years ago but he presented
an illustrious example by giving continually time and effort for the public
good. In the Legislature as Senator and Representative, on various Boards and
Commissions and as Mayor of Somerville he gave of his best in the service of
the people. He was a Veteran of the Civil War and was many times honored by
his comrades in the Grand Army of the Republic. He had been Commander of the
Willard C. Kinsley post G.A.R. and was a Department Commander of the Grand
Army in 1914 and 1915. Blessed with mental and physical vigor the viciss-
tudes of his early life and devotion to hard work developed a rugged frame
which has sustained his cheerful and unconquerable spirit during almost
eighty-nine years and up to within a few weeks of his death. He was called,
and justly so, the Grand Old Man of Somerville, and three generations mourn
at his passing.

Flags on City parks and public buildings are at half mast in tri-
bute to his memory and Your Board I am sure will want to take official action
in adopting resolutions and for attending the funeral which will be held from
his late home, 47 Spring street, Spring Hill, at 2.30 p.m. Tuesday April 12th

Respectfully,

Leon M. Conwell,

Mayor.

COMMUNICATIONS AND REPORTS FROM CITY OFFICERS.

Received from the city solicitor the following communication,

City of Somerville
Office of City Solicitor.

April 14, 1927.

To the Honorable the Board of Aldermen of
the city of Somerville

I reply as follows to your order of April 11 which reads

"The City Solicitor is hereby requested to render an opinion to this Board on Thursday next as to whether it is legal for the Elevated buses to carry passengers on Avon street in either direction without stopping to discharge or take on passengers."

Section 13 of ordinance No. 107 entitled "An Ordinance Relative to the Transportation and Carriage of Passengers for Hire by Motor Vehicles" is as follows^ "Sec. 13. No person shall operate or cause to be operated a motor vehicle except between such termini and over such route as shall be specified in the license for such motor vehicle"

Unless the license specified that the buses may be operated in Avon street I think it is not legal for them to carry passengers in that street as stated in said order of April 11. From an examination made this morning of records in the office of the city clerk I was unable to determine with certainty whether Avon street is now specified in the license.

yours very respectfully,

Prank V/. Kaan,

City Solicitor

COMMUNICATIONS FROM CITY OFFICERS

City of Somerville
Office of the City Solicitor

36589

May 9, 1927

Communica-
tion

To the Honorable the Board of Aldermen of
the city of Somerville:

I reply as follows to your order of April 28 which reads:

"Whereas, certain police officers have been instructed by
their superior officers that they have no authority to make an arrest as a
suspicious person, be it hereby ORDERED: The city solicitor is hereby re-
quested to advise this Board if the policemen of the city of Somerville have
authority to make an arrest as a suspicious person."

The question is of a general nature and it seems to me that the
best reply I can make is to quote the statute on the general powers and du-
ties of police officers, a copy of which is set forth below.

Thursday, May 12, 1927

yours very respectfully,

Frank.W.ttaan,

City.solicitor

General Laws chap. 41 Sec. 98. "The chief and other police officers of all cities and towns shall have all the powers and duties of constables except serving and executing civil process. They shall suppress and prevent all disturbances and disorder. They may when on duty carry such weapons as the mayor or selectmen shall determine. During the night time they may examine all persons abroad whom they have reason to suspect of unlawful design, and may demand of them their business abroad and whither they are going; may disperse any assembly of three or more persons and may enter any building to suppress a riot or breach of peace therein. Persons so suspected who do not give a satisfactory account of themselves, persons so assembled and who do not disperse when ordered, and persons making, aiding and abetting in a riot or disturbance may be arrested by the police, and may thereafter be safely kept by imprisonment or otherwise unless released in the manner provided by law, and taken before a district court or trial justice to be examined and prosecuted."

Referred to Committee on Public Safety.

Alderman Estes offered the following order,

Ordered;

parking of vehicles is hereby prohibited on the 36812
northwesterly side of Curtis street from Broadway to a point approximately
90 feet northeasterly; and on the southeasterly side of Curtis street be-
tween Broadway and Electric avenue, and the Commissioner of Streets is here-
by directed to erect suitable signs giving notice of these regulations, the
expense so incurred to be charged to Highways Maintenance account.

Orders dated February 14, 1924 and April 23, 1925 relative
to parking on Curtis street are hereby rescinded.

Read twice and accepted.

Approved by the mayor May 27, 1927.

Aldermen Curtis and Kstes offered the following orders,

Ordered:

That the Public Property committee consider the
advisability of recommending an appropriation for a survey of the entire
school situation in Somerville by a competent authority, and report at the
next regular meeting of the Board.

Practically all of the land in this city available for resi-
dential purposes has been built upon.

A zoning ordinance has been adopted which clearly defines the
sections of the city reserved for additional residences.

It is evident therefore that such a survey would indicate
definitely a program which will provide proper school accommodations for a
long period of time.

Unfortunately a majority of our school buildings in which we 36777
should have great civic pride, are antiquated fire traps, many of them un-
sanitary and improperly ventilated, according to modern requirements, and
in some cases actually in such condition that they will be structurally un-
safe in a few years. Kleven buildings were built over 40 years ago, two of
these over 60 and four over 50.

As a result of the rapid growth of the Western and Ten Hill
Farm sections of the city, school accommodations are insufficient. In West
Somerville some of the pupils attending the Cutler school in the kinder-
garten and other grades are forced to walk a total of three miles, daily,
and under traffic conditions today this distance is entirely unreasonable. [
New school buildings are an immediate necessity in these districts.. The
Western Junior High School requires additional rooms at once. Rooms are be-
ing used in the Hodgkins School and much time is lost by pupils marching
back and forth in all kinds of weather. This is highly undesirable both
from an educational and hygenic viewpoint.

If a comprehensive and intelligent survey is made by expert
educators it is possible that some of the older buildings could be discon-
tinued, additional accommodations recommended to provide for present and
future requirements, and that the information thus acquired from soundly
responsible un-biased sources, scientifically applied might lead to the
adoption by the city of a fixed principle as the basis of the future In
dealing with the ever unsettled and vexing problem of school housing.

Adopted.

Ordered:

That the joint committees of Public Safety and

36778

Thursday, May 26, 1927

Public Property with the assistance of the Chief Engineer of the Fire Department and Commissioner of Public Buildings, consider the advisability of immediately investigating the fire hazard in the public school buildings of the city, and report at the next regular meeting, of the Board.

First: This question, more particularly in relation to the safety of children in the schools, has been a subject of discussion for many years.

For the first time a comprehensive statement of the danger children are forced to assume, made by a qualified disinterested expert has been prepared at the instigation of the West Somerville Civic Association.

A copy of this survey made by Mr. H. L. Bond, Field Engineer of the International Fire protection Association is annexed to this order. Twelve buildings were investigated and the conditions found are typical in a majority of our school buildings.

Quoting from this report Mr. Bond says, referred to the fire in the Lakeview Grammar School, Collinwood, Ohio in which 173 children and 2 teachers lost their lives "This is the most colossal of school disasters and is important because it occurred in a school building almost identical in construction and layout to most of those covered by this report" "Compare this with the layout of the Brown, Forster, Highland, Morse, Glines and Carr Schools."

Quoting again, and referring to the fire in the St. John's School, Peabody, Massachusetts, where 22 girls were burned to death. "This is a fire nearer home in a building constructed substantially the same as most of the Somerville Schools -- brick walls, wooden insides, wood corridors and stairs."

Quoting again, referring to arrangement and accessibility of Exits, Mr. Bond says, "These schools are a positive menace to life safety: Cutler, Carr, Glines, Pope, Knapp, Bennett, Morse, Brown, Forster and Highland.

It is impossible to fail to recognize the importance of immediate action, including a completion of the survey by Mr. Bond to include all other school buildings. The chairman of the sub-committee of the West Somerville Civic Association in presenting the engineer's survey to the Association says, "That there exists an ever present menace and potential threat of a terrible fire calamity cannot for a moment be doubted or ignored. The fact that good fortune or a benignant Providence has held us immune in the past is no guarantee for the future."

In the fact of this report if such a calamity should occur because these conditions are allowed to continue for one moment longer than is absolutely necessary to adopt and carry out preventative measures, the members of the city government might well be accused of criminal negligence.

Second: The school buildings and furniture in Somerville were valued according to the 1925 School Report at \$3,216,400.

Each administration year after year has continued the mistaken policy of allowing tax payers to get along without self insurance, in as much as no sinking fund is provided to be used for replacements in case of fire, and bond issues would have to be floated. This is a poor financial policy. It is merely one of taking a chance, relying on the efficiency of our fire department, and the resultant saving of fire insurance premiums. The risk is too great.

In the face of the report of the Civic Association Committee based on the survey by Mr. Bond, it is obvious again that the city has been doubly fortunate; no fire has occurred, and no lives have been lost. A fire in these buildings, without insurance, would entail serious financial loss to the city.

There is therefore the additional economic reason that preventative measures should be taken immediately.

Adopted.

To the Honorable the Board of Aldermen
Gentlemen;

37X13 It is my painful duty to make formal announcement to you of the death of Ernest W* Bailey who had been City Engineer of Somerville since 1896 and whose ability and devotion to the interests of the city will be sadly missed. After his death and until the day of the funeral the flag on the City Hall and the flags on the various grounds and buildings in charge of the City Engineer were at half mast. I know that you join with me in sorrow over the death of this faithful official of the city.

I have designated Ernest W. Danforth, a member of the City Engineer^ Department for many years, as acting city engineer with authority to approve bills and direct the work of the department.

Respectfully,
Leon M. Conwell
Mayor.

Somerville, Mass. Sept. 2, 1927.

Hon. Leon M. Conwell, Mayor
Somerville, Mass.

Dear Mr. Mayor,

On Thursday September 1, 1927 the Captain of Engine Company No. 4 requested my presence to observe the condition of Matthew J. Dempsey, a member of that company. I found Dempsey under the influence of liquor and in conversation with him received very abusive and ungovernable language, he was in such a condition as to be unfit for duty so that I carried him to his home.

37193

This is one of the several times that Dempsey has been under the influence of liquor and I now feel that he should not be retained in the responsible position of fireman in this department, therefore, in accordance with the authority vested in me as Chief Engineer of the Fire Department under Chapter 18, Section 9 of the Revised Ordinances of the city of Somerville and also Rule 1 of the Rules and Regulations of the Fire Department, I have suspended Matthew J. Dempsey, having given him notice of such action in writing, and hereby recommend his discharge from the Department.

Respectfully submitted

Gentlemen:

In accordance with the authority vested in me as Chief Engineer of the Fire Department under Chap. 453 of the Acts of 1912, I hereby retire and place upon the pension roll William J. Baker, a permanent member of the fire department, who, by injuries sustained through no fault of his and in the actual performance of his duty, has become permanently disabled, physically, from further useful service in the department.

37192

On August 19, 1926 Box 433 was sounded for a fire in house at 34 Benton road due to electric light wires, the Wire Commissioner ordered the wire cut on the pole, Baker did so and the pole broke off at the ground and fell carrying Baker with it.

The accompanying copy of a letter from Mr. Bateman, City Physician, outlines the case and the present condition of Baker, who has been on full
